Investment objective

The investment objective of the Fund is to seek to deliver capital growth, whilst limiting downside risk, over any period of five consecutive years or more. The portfolio is actively managed and not constrained by any index.

This fund is suitable for retail and institutional investors aligned with this objective.

Investment strategy

The Fund seeks to invest in 25-35 high quality Continental European companies with attractive long term growth prospects. The investment team conducts fundamental research to assess three key criteria for each company: a defensible business model, a repeatable success formula and a scalable long-term growth opportunity. Endurance matters more than speed. Portfolio companies are likely to have characteristics including durable competitive advantages, strong free cash flow generation, high returns on capital employed, above-average earnings per share growth, solid balance sheets, financial resilience in changing environments, good governance and healthy relationships throughout their ecosystem. It is intended that the Fund will meet the requirements for PEA eligibility in France.

IMPORTANT RISK CONSIDERATIONS - This Fund has the following core inherent risks (non-exhaustive list):

- **Equities:** investments may be volatile and may fluctuate according to market conditions, the performance of individual companies and that of the broader equity market.
- **Capital:** investment markets are subject to economic, regulatory, market sentiment and political risks. All investors should consider the risks that may impact their capital, before investing. The value of your investment may become worth more or less than at the time of the original investment. The Fund may experience a high volatility from time to time
- **Currency:** to the extent that the Fund is invested in or denominated in a currency other than yours, the value of the Fund may be affected by changes in currency exchange rates
- **Concentration:** investments concentrated within securities, sectors or industries, or geographical regions may impact performance.
- **Small and mid-cap:** smaller company stock prices can be more volatile than stock prices of larger companies
- **Style:** the investment manager's specific selection approach, focusing on companies with persistent growth characteristics, may impact performance as such investments may perform differently to the rest of the market depending on market conditions and investor sentiment
- There is no assurance that the investment objective of the Fund will be achieved.
- A more detailed description of the risk factors that apply to the Fund is set out in the Prospectus and Fund Supplement.

All data is as at the document date unless indicated otherwise. Certain numbers in this report may not add due to rounding and/or the exclusion of cash. Performance data herein relates to the Aecus Continental Europe Equity Fund (the "Fund"). Net asset value performance (NAV) data has been calculated on a NAV to NAV basis and is net of management fees and operating expenses, with any income reinvested. A detailed description of the charges that apply is set out in the Prospectus. The ongoing charges figure may change over time.

Company holdings and performance are likely to have changed since the report date. Company information, including performance calculations and other data, is provided by Aecus Partners SAS. Please note the Fund has a swing pricing mechanism in place. If the last business day of the month is not a business day for the Fund, performance is calculated using the last available NAV. This may result in a performance differential between the Fund and the index.

Past performance may not be a reliable guide to future performance and investors may not get back the amount invested. If an investor's own currency is different from the currency in which the Fund is denominated, the investment return may increase or decrease as a result of currency fluctuations. All investments involve risk. The value of the investment and the income from it will vary. The figures quoted relate to past periods and past performance is not a reliable indicator of future performance.

Index information: The Fund uses the MSCI Europe ex UK Net Index (source: MSCI) as a comparator benchmark to compare performance. The Fund is actively managed and is not constrained by any benchmark. All MSCI indexes and products are trademarks and service marks of MSCI or its subsidiaries. No further distribution or dissemination of the MSCI data is permitted without MSCI's express written consent. An investor cannot invest directly into an index.

Risk Indicator: The risk indicator assumes an investor keeps the product for 5 year(s). The risk of the product may be significantly higher if held for less than the recommended holding period. Investors should carefully consider the investment objectives, risks, charges, and expenses of the Fund. This and other important information is contained in the Prospectus, the Supplement, and the applicable KIDs. Read these documents carefully before you invest.

Sustainable investment considerations: The Fund is an Article 8 financial product for the purposes of Regulation (EU) 2019/2088 of the European Parliament. Sustainable investment considerations are one of multiple informational inputs into the investment process, alongside data on traditional financial factors, and so are not the sole driver of decision-making. Sustainable investment analysis may not be performed for every holding in the Fund. As a result of the investment process, the Fund may invest in companies that do not reflect the beliefs and values of a particular investor. The Fund may also invest in companies that would otherwise be excluded from other funds that focus on sustainable investment risks. Security selection will be impacted by the combined focus on sustainable investment research assessments and fundamental research assessments including the return forecasts. The Fund incorporates data from third parties in its research process but does not make investment decisions based on third-party data alone. Aecus Partners SAS relies on third parties to provide data and screening tools. There is no assurance that this information will be accurate or complete. There is no guarantee that Aecus Partners SAS' use of these tools will result in effective investment decisions. The decision to invest in the Fund should take into account all the characteristics and objectives of the Fund as described in the Fund Supplement.
